- b. **Prior to the scheduled commencement of the second innings**, and at any subsequent interruption that results in overs being lost, the DLS operator shall produce an up-to-date par score printout, and shall provide copies to each captain, the umpires and the scorers. **For the avoidance of doubt, DLS sheets should be issued to both teams and the umpires prior to the scheduled (or rescheduled) time for the start of the second innings. This applies even if conditions of GWL mean it is unlikely that DLS shall be required during the match.**
- c. At each interruption in play in the second innings where overs are lost the umpires shall inform the operator of the number of overs lost, allowing sufficient time before play is due to recommence for the production and distribution of the par score printouts. Umpires are to allow no more than 10 minutes for the reprinting and distribution of new sheets to be completed.
- d. Where play is interrupted and overs are lost, and the home club fails to provide the par score printouts as required above, it shall be deemed to have lost the match. In this case the umpires will award the match to the visiting team.

Where a match is reduced and becomes a match of 10-20 overs in duration the points shall be decided using the 10-20 overs table, this shall apply if an innings is in progress but terminated due to poor weather and results in either a result due to abandonment or a revised 2nd innings of less than 20 overs in a replayed match

LAW 11 – THE INTERVALS

Laws 11.3, 11.5, 11.6, 11.7 and 11.9 shall not apply. Law 11.2.2 applies except that the time for the interval shall be 30 minutes and Law 11.4 is amended as follows;

Law 11.4 – Changing agreed times of intervals

Law 11.4 is replaced by;

11.4.1 If the innings of the team batting first is completed prior to the scheduled time for the interval, the interval shall take place immediately and the innings of the team batting second will commence correspondingly earlier, providing this does not lead to an interval occurring more than 30 minutes prior to the scheduled interval

11.4.2 If the innings of the team batting first is completed more than 30 minutes prior to the scheduled interval, a 10-minute break will occur and the team batting second will commence its innings, and the interval will occur as scheduled, the interval in this case will be reduced to 20 minutes.

11.4.3 If at the innings break both captains and the umpires agree the interval may be shortened to no less than 15 minutes. In case of this agreement then any time 'gained' through a shortened interval shall be used to increase playing time should an interruption occur in the 2nd innings when making over reduction calculations. However, this time must not result in the team batting 2nd being able to face more overs than were scheduled to be available for the team batting first

LAW 12 – START OF PLAY; CESSATION OF PLAY

Laws 12.6, 12.7, 12.8 and 12.11 shall not apply, and Laws 12.9 and 12.10 shall apply in so far as they are relevant to a one-innings limited overs match. In addition, the following shall apply;

12.1 – Scheduled hours of play

12.1.1 Each match shall consist of two sessions of 2hrs 40 minutes each, separated by a 30minute interval.

12.1.2 If, in the sole opinion of the umpires, there have been delays beyond the control of the fielding side e.g. injury, lost ball etc, they may extend the cessation time by an equivalent amount of time to allow for such delays. Any time so added by the umpires shall be at their sole discretion and shall not be subject to retrospective negotiation.

12.2 – Minimum over rates & Over rate penalties

12.2.1 All sides are expected to be in position to bowl the first ball of the last of their 40 overs within 2hrs 40 minutes playing time. In the event of them failing to do so, the full quota of overs will be completed, and the batting side will be credited with six runs for every whole over that has not been bowled – this will apply in both innings of the match. If the side batting second is credited with runs in this way, and this consequently takes their score to or past their victory target, then the match shall be deemed to be won by the side batting second. All penalties in this regard will be imposed immediately the ball first becomes dead after the scheduled or rescheduled cessation time for the innings.

12.2.2. if the innings is terminated before the scheduled or rescheduled cessation time, no over-rate penalty shall apply. If an innings is interrupted, the over-rate penalty shall apply based on the rescheduled cessation time for the innings.

12.2.3 The umpires shall inform the fielding captain when taking the field for the first time, and on every subsequent occasion if the play is interrupted by the weather, the rescheduled cessation time for that innings.

12.2.4 In all reduced overs matches, the fielding team shall be given one over's leeway. This means that the fielding side must be in a position to bowl the first ball of the penultimate over by the rescheduled cessation time.

LAW 13 – THE INNINGS

Law 13.2, 13.3.3 and 13.3.4 shall not apply. The remainder of Law 13 shall apply, subject to the following:

13.1 Law 13.1 – Number of innings

All matches will consist of one innings per side, each innings being limited to a maximum of 40 overs

Length of innings (for matches scheduled for midweek nights please also refer to Appendix 3)

13.2.1 Uninterrupted matches

13.2.1.1 Each team shall bat for 40 overs unless all out earlier.

13.2.1.2 If the team fielding first fails to bowl the required number of overs by the scheduled time for the cessation of the first innings, play shall continue until the required number of overs has been bowled. The team batting second shall receive its full quota of overs, irrespective of the number of overs it bowled in the scheduled time for the cessation of the first innings.

13.2.1.3 If the team batting first is dismissed in less than the scheduled number of overs, the team batting second shall be entitled to bat for the full scheduled amount of overs, subject to there being no interruptions leading to a reduction in the amount of overs available

13.2.1.4 If the team batting second fails to bowl its scheduled number of overs by the cessation time, the hours of play shall be extended until the required number of overs have been bowled or a result is achieved

13.2.1.5 Penalties for slow over rates shall apply as per 12.2

13.2.2 Delayed or interrupted matches

13.2.2.1 Delay or interruption to the innings of the team batting first

- The number of overs available to each side shall be reduced by one for each full eight minutes of playing time lost
 - *Example – of the start of the match is delayed by 45 minutes playing time has been lost meaning both innings are reduced to 35 overs ($45/8 = 5$ rounded down).*
- If the team fielding first fails to bowl the required number of overs the scheduled time for the cessation of the first innings, play shall continue until the required number of overs have been bowled, or the innings is completed
- Penalties shall apply for slow over rates (see 12.2)

13.2.2.2 Delays or interruptions to the team batting second

- Should a match be delayed and/or interrupted and playing time is lost, and as a result, it is not possible for the team batting second to have the opportunity of receiving its allocated number of overs in the playing time available, the number of overs shall be reduced at a rate of one over every four minutes lost in respect of the actual playing time lost. Fractions shall be ignored
 - *Example – if 70 minutes actual playing time is lost, that equates to 17 overs lost ($70/4 = 17$ ignoring fractions)*
- In addition, should the innings of the team batting first have been completed prior to the scheduled or rescheduled time for commencement of the interval, then any calculation relating to the revision of overs shall not be effective until an amount of time equivalent to that by which the second innings started early has elapsed.
 - *Example – if the first innings is completed 20 minutes earlier than previously schedule (i.e. at 4.00pm against a scheduled time of 4.20pm), that 20 minutes of unused playing time shall be*

counted as additional time if required (see 13.3 below). If 70 minutes of actual playing time were lost, then 12 overs would be lost (70-20 = 50mins; 50 mins = 12 overs

- 13.2.2.3 To constitute a match in a first attempt, a minimum of 20 overs per innings have to be bowled, subject to the 1st innings not closing earlier due to a team being bowled out, and in case of the second innings a result not being achieved earlier. In the case of 2nd attempt games, the minimum requirement shall be 10 overs per innings

13.2.2.4 The team batting second shall not bat for a greater number of overs than the team batting first, unless the latter completed its innings in less than its allocated number of overs.

13.2.2.5 If the team fielding second fails to bowl the required number of overs by the scheduled or rescheduled time for the cessation of the second innings, play shall continue until the required number of overs have been bowled, or a result has been achieved.

13.2.2.6 Penalties shall apply for slow over rates (see 12.2)

13.4 Number of overs per bowler

13.4.1 No bowler shall bowl more than 8 overs in an innings

13.4.2 In a delayed or interrupted match, where the overs are reduced for both teams (or the team bowling second), no bowler can bowl more than one-fifth of the total overs for the innings (unless when the reduction occurs they have already done so). Where the total overs are not divisible by five, one additional over shall be allowed to the maximum number per bowler to make up the balance.

13.1.2.19 In the event of a bowler not being able to complete an over, the remaining balls will be bowled by another bowler. Such part of an over will count as a full over only in so far as each bowler's limit is concerned. (example – a bowler completes another bowler's over bowling 3 balls, he would then only be entitled to bowl 7.3 overs or x.3 overs for a reduced match, he would not be able to bowl his allocation of the 3 balls remaining)

LAW 14 – THE FOLLOW-ON

Law 14 shall not apply

LAW 15 – DECLARATION AND FORFEITURE

Law 15 shall not apply

LAW 16 – THE RESULT

Laws 16.1, 16.4 and 16.5.2 shall not apply. The remainder of Law 16 shall apply, subject to the following:

16.1 Uninterrupted matches

16.1.1 When there is no interruption in play, and when both teams have had the opportunity of batting for the same agreed number of overs, the team scoring the higher number of runs shall be the winner. In the event of scores being equal, the match shall be a tie

16.2 Interrupted or reduced matches

16.1.2 If there is a reduction in overs due to delays/interruptions, to one or both innings, then a revised target score shall be set for the number of overs the team batting second will have the opportunity of facing. This will be calculated by using the Duckworth-Lewis-Stern method, and a table of par scores will be printed. The target set will always be a whole number and scoring one run less than this target will constitute a Tie.

16.2.3 If the innings of the side batting second is suspended (with at least 20 overs in case of a first attempt, or 10 overs in case of a second attempt, bowled) and it is not possible for the match to be resumed, the match will be decided by comparison to the DLS 'Par Score', determined at the instant of the suspension by the DLS method. If the score is equal to the Par Score, then the match is tied. Otherwise, the result is a victory, or defeat, by the margin of runs by which the score exceeds or falls short of the Par Score.

16.2.4 For games that are first attempts, a result can only be achieved if both teams have had the opportunity of facing a minimum of 20 overs, if a result cannot be achieved in the original match, then the match shall be replayed on a date to be arranged by the NWCU Administration Officer.

16.2.5 In a replayed match, if a result cannot be achieved because both teams have not had the opportunity of facing a minimum of 10 overs then the match shall be declared a 'No Result'

LAW 17 – THE OVER

Law 17 shall apply

LAW 18 – SCORING RUNS

Law 18 shall apply

LAW 19 – BOUNDARIES

Law 19 shall apply

LAW 20 – DEAD BALL

Law 20 shall apply

LAW 21 – NO BALL

Except for Law 21.10, Law 21 shall apply and in addition, the following shall also apply;

21.1 Free hit

21.1.1 In addition to the above the delivery following a no ball call called (all variations of no ball) shall be a free hit for whichever batsman is facing it. If the delivery for the free hit is not a legitimate delivery (any kind of no ball or a wide ball) then the next delivery will become a free hit for whichever batsman is facing it.

21.1.2 For any free hit, the striker can be dismissed only under the circumstances that apply for a No ball, even if the delivery for the free hit is called as a wide ball

21.1.3 Neither field changes, nor the exchange of individuals between fielding positions are permitted for free hit deliveries unless;

21.1.3.1 There is a change of striker (the provisions of clause 41.2 shall apply), or

21.1.3.2 The No ball was the result of a fielding restriction breach, in which case the field may be changed to the extent of correcting the breach

21.1.4 For clarity, the bowler can change his mode of delivery for the free hit delivery. In such circumstances Law 21.1 will apply

LAW 22 – WIDE BALL

Law 22 shall apply, as does Law 22.1 subject to the following;

22.1 – Judging a Wide

22.1.1 Any delivery which passes down the leg-side (behind the body of the striker, standing in a normal guard position) will be interpreted as a form of negative bowling and shall be called a wide. For the sake of clarity, a ball that passes down the leg-side, but in between the striker and the leg stump, is not to be called wide since the striker has had a reasonable opportunity to play at the ball.

22.1.2 Any delivery that passes outside the wide guideline (as detailed in Appendix 1), with the batsman in a normal guard position, should be called a wide

22.1.3 For clarity, if the batsman brings the ball sufficiently within his reach and the ball passes outside the wide guideline on the offside then it is not a wide. For example, a batsman moving to the off side as the bowler bowls, could bring the ball within their reach even though the ball passes outside the guideline on the offside of the wicket, and if they fail to make contact with the ball, the delivery should not be called a wide.

22.1.4 In extreme cases where the bowler delivers a ball and it passes wide of the return crease, then regardless of the movement of the striker and even if they bring the ball within reach, if no contact is made with the ball, then this delivery shall be called a wide (subject to it not being a no ball for reasons as detailed in Law 21)

22.1.5 The interpretation to be followed for calling a wide when a switch hit or reverse sweep is played, or the batsman gets into a position to play the shot and then aborts it shall be, from the moment the ball ceases to be dead, whenever a batsman has changed his grip and/or his stance (or feinted to do so) or has attempted a reverse sweep or switch hit, then he loses the tight definition of the leg-side wide and the wide guidelines are employed on both sides of the wicket, not just the off-side.

LAW 23 – BYE AND LEG BYE

Law 23 shall apply

LAW 24 – FIELDER'S ABSENCE; SUBSTITUTES

Law 24 shall apply, subject to the following:

24.1 Law 24.1 – Substitute fielders

24.1.1.3 Substitutes shall not be allowed in circumstances where a player is late from work or leaves early to attend work or for any other reason as deemed unacceptable by the umpires

Law 25 shall apply

LAW 26 – PRACTICE ON THE FIELD

Law 26 shall apply

LAW 27 – THE WICKET-KEEPER

Law 27 shall apply

28.1 Restrictions on the placement of fieldsmen

In addition to the restrictions outlined in Law 28.4, further fielding restrictions shall apply to certain overs in each innings. The nature of such fielding restrictions and the overs during which they shall apply are set out as follows

28.1.1 Two semi-circles shall be drawn on the field of play. The semi-circles shall have as their centre the middle stump at either end of the pitch. The radius of each of the semi-circles shall be 30 yards. The semi-circles shall be linked with two parallel straight lines on the field. (see appendix 2) The fielding restriction areas should be marked by continuous painted white lines or ‘dots’ at 5 yard intervals, each ‘dot’ to be covered by a white plastic or rubber (not metal) disc measuring 7 inches in diameter. These discs shall not be fixed to the ground by means of a nail or other such sharp object.

28.1.2 At the instant of delivery:

- Powerplay 1 – no more than two (2) fielders shall be permitted outside this fielding restriction area. In an innings of 40 overs, these are overs 1-8 inclusive.
- Powerplay 2 – no more than four (4) fielders shall be permitted outside this fielding restriction area. In an innings of 40 overs, these are overs 9-32 inclusive.
- Powerplay 3 – no more than five (5) fielders shall be permitted outside this fielding restriction area. In an innings of 40 overs, these are overs 33-40 inclusive
- In all three Powerplays, there may not be more than 5 fieldsmen on the leg side

28.1.3 In circumstances when the number of overs of the batting team is reduced, the number of overs within each powerplay shall be reduced in accordance with the table below. For the sake of clarity, it should be noted that the table shall apply to both the first and second innings of the match

28.1.4 If play is interrupted during an innings and the table above applies, the Powerplay takes immediate effect. For the avoidance of doubt this applies even if the interruption has occurred mid-over.

Examples:

A 40 over innings is interrupted after 8.3 overs and reduced to 32 overs. The new powerplay overs are 7+19+6.

Therefore the 2nd powerplay takes immediate effect and lasts for a further 17.3 overs.

A 40 overs innings is interrupted after 18.5 overs and reduced to 22 overs. The new powerplay overs are 5+13+4.

When play resumes, the final powerplay applies for the remaining 3.1 overs

28.1.5 In the event of an infringement of any of the above fielding restrictions, the square leg umpire shall call and signal 'No ball'.

LAW 41 – UNFAIR PLAY

Law 41 shall apply, subject to the following:

41.6.1 Bowling of dangerous and unfair short pitched deliveries

Notwithstanding clause 0, the bowling of short pitched deliveries is dangerous if the bowler's end umpire considers that, taking into consideration the skill of the striker, by their speed, length, height and direction they are likely to inflict physical injury on him/her. The fact that the striker is wearing protective equipment shall be disregarded.

In the first instance the umpire decides that the bowling of short pitched deliveries has become dangerous under clause 41.6.1

41.6.1.1 The umpire shall call and signal No ball, and when the ball is dead, caution the bowler and inform the other umpire, the captain of the fielding side and the batters of what has occurred. This caution shall apply to that bowler throughout the innings.

41.6.1.2 If there is a second instance, the umpire shall repeat the above procedure and indicate to the bowler that this is a final warning, which shall apply to that bowler throughout the innings.

41.6.1.3 Should there be any further instance by the same bowler in that innings, the umpire shall

- call and signal No ball

- when the ball is dead, direct the captain of the fielding side to suspend the bowler immediately from bowling

- inform the other umpire for the reason for this action.

The bowler thus suspended shall not be allowed to bowl again in that innings.

If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.

- The umpire shall report the occurrence to the batters and, as soon as practicable, to the captain of the batting side.

The umpires may then report the matter to the NWCUC Administration Manager who shall liaise with the NW Disciplinary Committee to take such action as is considered appropriate against the bowler concerned.

41.6.1.4 A bowler shall be limited to **two fast short-pitched deliveries per over**.

41.6.1.5 A fast short-pitched delivery is defined as a ball, which passes or would have passed above the shoulder height of the striker standing upright at the popping crease.

41.6.1.6 The umpire at the bowler's end shall advise the bowler and the batter on strike when each fast short pitched delivery has been bowled.

41.6.1.7 In addition, a ball that passes above head height of the batter, standing upright at the popping crease, that prevents him/her from being able to hit it with his/her bat by means of a normal cricket stroke shall be called a Wide.

41.6.1.7.1 For the avoidance of doubt any fast short pitched delivery that is called a Wide under this clause shall also count as one of the allowable short pitched deliveries in that over.

41.6.1.8 In the event of a bowler bowling more than two fast short-pitched deliveries in an over as defined in clause 0 above, the umpire at the bowler's end shall call and signal No ball on each occasion. A differential signal shall be used to signify a fast short pitched delivery. The umpire shall call and signal 'No ball' and then tap the head with the other hand.

41.6.1.9 If a bowler delivers a third fast short pitched ball in an over, the umpire, after the call of No ball and when the ball is dead, shall caution the bowler, inform the other umpire, the captain of the fielding side and the batters at the wicket of what has occurred. This caution shall apply throughout the innings.

41.6.1.10 If there is a second instance of the bowler being No balled in the innings for bowling more than two fast short pitched deliveries in an over, the umpire shall advise the bowler that this is their final warning for the innings.

41.6.1.11 Should there be any further instance by the same bowler in that innings, the umpire shall

- call and signal No ball

- when the ball is dead, direct the captain of the fielding side to suspend the bowler immediately from bowling

- inform the other umpire for the reason for this action.

The bowler thus suspended shall not be allowed to bowl again in that innings.

If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.

- The umpire shall report the occurrence to the batsmen and, as soon as practicable, to the captain of the batting side.

41.6.1.12 The umpires may then report the matter to the NWCUC Administration Manager who shall liaise with the NWCUC Disciplinary Committee and take such action as is considered appropriate against the bowler concerned.

Should the umpires initiate the caution and warning procedures set out in clauses 0 and as in Law 41.7 such cautions and warnings are not to be cumulative.
